EXPERIENCE

Human Centered Design & Engineering Department   Seattle, WA

Undergraduate Researcher   April 2023 – June 2023

- Analyzed quote-tweet datasets by determining each tweet's stance: positive, negative, neutral
- Developed a code book in Excel to demonstrate the negative affect of Twitter
- Read scholarly articles and interviewed HCDE and Informatics faculty to put our Tweets in context

Novoloom   Sammamish, WA

Lead Usability Tester   Sept. 2021 - Sept 2022

- Wrote official usability testing protocol (methodology, KPI's, script, etc.)
- Created pre and post surveys to gather data about what experiences/thoughts users had while using brand products

- Designed user-friendly pamphlet based off the protocol to distribute during usability test
- Translated statistics from usability test into a visually appealing and easily digestible presentation
- Filmed promotional videos for products on YouTube, Instagram Reels, and TikTok

WashPIRG   Seattle, WA

Volunteer – Hunger & Homelessness Campaign   Sept. 2022 – Present
- Lobbied seven Washington legislators to pass the Basic Needs Act
- Rallied 70 volunteers to write cards of appreciation to donate to the UW food bank
- Participated in phone-banking and visited over 30 houses around Seattle to recruit new members

Indy on Air Podcast   Sammamish, WA

Lead producer   Aug 2020 - Jul 2022
- Participated in social-media outreach and hosted interviews to recruit new team members
- Conducted and transcribed over 50 interviews with guests for our episodes

Techno-Smart Kids   Sammamish, WA

Tutor   Dec 2020 – June 2022
- Plan and teach individualized lessons in one-on-one classes to improve understanding of programming languages
- Instructed over fifteen 6th – 8th grade students in Java and Python
